

TA 822

- This product is used to strengthen the RF signal at the headend cabinet output
- It strengthen terrestrial high powered with HYBRID amplifier
- due to its aluminum structure

- Input 1 F connector
- Output 1 F connector
- Frequency Range TERR 47-870 Mhz
- TERR Gain 32dB
- Attenuator adjustment 0...20dB
- Ekolayzer attennator 0...15dB
- Max. output TERR 115dB ±10
- Isolation >40dB
- Ambient Temperature -25...+50C°
- Dimensions : 200x140x750mm
- Weight : 1400 gr
- Desi:0.675
