

TS 1x16

- Produced for professional projects
- 1 polarities total 1 sat distributor
- Can connect 16 different multiswitch with independent outputs
- Adjustable gain due to 20 db
- LNB voltage supply
- LNB short circuit protection
- Linear sat broadcast output due to filters on each subs output
- Led warning system
- Extra sat filter and IF amplifier at polarity input
- Independent highly insulated outputs
- High insulated SMPS power supply
- Can work at low signals due to high gain at subs output
- Easy and compact installation
- Low power consumption due to new smd components
- Compatible with digiturk systems
- Quad&Quattro LNB usage feature
- Subs port protection up to 100 volts
- 100m distribution for each subs
- 950-2150 mhz sharp and amplified filter for each output
- Input 1 F Konnektör
- Output 16 F konnektör
- Frequency Range SAT. 950-2150 Mhz
- SAT Abone Gain +13dB±1
- Attenuator adjustment 0...20dB
- Max. Input SAT 90dB ±5
- Isolation >30dB
- Power Supply 18V 5000mA
- Ambient Temperature -25...+50C°
- Dimensions: 490x90x6mm

- Weight: 950 gr

- Desi: 0.882
